### Mission Statement

Alpha Guard Security Ltd recognises that providing a safe and secure environment is fundamental to the success and continuity of our clients' operations. We understand that selecting a security partner who genuinely understands the unique requirements of each organisation can be a challenging process.

For this reason, Alpha Guard Security Ltd places significant emphasis on conducting comprehensive security assessments to fully understand each client's specific needs. Based on these assessments, we design and implement tailored security solutions that are both effective and adaptable to changing operational demands.

Our personnel are fully trained, professionally qualified, and carefully selected. All security officers hold valid Security Industry Authority (SIA) licences and are trained in First Aid, with many also possessing Construction Skills Certification Scheme (CSCS) qualifications where required. Our staff are fully insured, bonded, and undergo rigorous vetting procedures prior to deployment. In addition, we benefit from the expertise of former law enforcement professionals whose experience strengthens our operational capabilities. All personnel are subject to thorough background checks (CRB/DBS) and comprehensive screening processes.

Our mission is to deliver professional security services that consistently exceed client expectations while maintaining the highest standards of integrity,

professionalism, and value.

Alpha Guard Security Ltd operates as an employee-focused and client-driven organisation, committed to achieving the individual objectives of each client through quality service delivery, best practice security management, and tailored security solutions.
